## 2010 COMMERCIAL & RESIDENTIAL WATER REBATES

### 1. TERMS AND CONDITIONS

2010

This program offers rebates for the purchase of new energy-efficient equipment. Applicants should review the terms and conditions listed below and fill in the corresponding rebate information on the following pages. To qualify for a rebate, these requirements must be met:

- **Only one service address per application.**
- **The utility reserves the right to apply rebates to past due accounts. All rebates \$25 and under will be applied to your account. Rebates will not exceed the purchase price.**
- Energy-efficient equipment must be connected to a water service supplied by Austin Utilities, Owatonna Public Utilities, or Rochester Public Utilities and **subject to inspection.** (*For example, you must have your WATER service through one of these utilities in order to receive a WATER rebate.*)
- Equipment installations must meet our **Minimum Efficiency Requirements** to qualify for a rebate. WaterSense®, Energy Star® and ASTM standards are used. (Please refer to the appliance or equipment section of this rebate form for requirements and reference sources.)
- **Due to limited funding, this rebate offer can be withdrawn at any time without notice. Applications will be processed on a first-come, first-serve basis. All applications from the previous year's purchases must be received by March 31.**
- Rebates can only be offered on equipment that is installed while funding is in effect. In the event our program is discontinued due to depleted funds, we will not provide a rebate for items installed between the discontinued date and the end of that year.
- **Return the completed application and required documentation to your utility provider.**

#### Austin Utilities
