### 2. REBATE APPLICATION CHECKLIST

This program offers rebates for the purchase of new energy-efficient products. Reconditioned or refurbished equipment is not eligible for a rebate. Use this checklist to complete the steps to receive your rebates:

- □ 1. Read the following terms and conditions to determine if you are eligible for a rebate:
  - · Only one service address per application.
  - The utility reserves the right to apply rebates to past due accounts. Rebates \$75 and under will be applied to your account. Rebates will not exceed the purchase price.
  - Energy-efficient equipment must be connected to an electric service supplied by Austin Utilities, Owatonna Public Utilities, or Rochester Public Utilities and is subject to inspection.
  - Equipment installations must meet our Minimum Efficiency Requirements to qualify for a rebate. Air-Conditioning, Heating, and Refrigeration Institute (AHRI) and ENERGY STAR® standards are used. (Please refer to the appliance, lighting, or HVAC rebates sections of this form for requirements and reference sources.)
  - Due to limited funding, this rebate offer can be withdrawn at any time without notice. Applications will be processed on a first-come, first-serve basis. All applications from the previous year's purchases (2015) must be received by March 31, 2016.
  - Rebates can only be offered on equipment that is installed while funding is in effect. In the event our program is discontinued due to depleted funds, we will not provide a rebate for items installed between the discontinued date and the end of that year.
- ☐ 2. Purchase and install new products with the ENERGY STAR® label or that meet our MINIMUM EFFICIENCY REQUIREMENTS.
- 3. Complete the application, making sure to fill out all required sections in detail. Missing or incorrect information will increase the processing time.
- 4. Include a final, detailed copy of the original sales receipt, invoice, or picking slip showing the customer name, date of sale, manufacturer name, model number, size, and date of installation.
- 5. For CFL and LED rebates, applicant must also include the portion of the packaging showing the ENERGY STAR® logo, manufacturer, model number, bulb wattage, and number of bulbs or fixtures.
- 6. For RECYCLING rebates, applicant must also include proof of recycling from retailer or county recycling center showing the fee paid. The recycling bonus rebate cannot be combined with any other recycling rebate.
- ☐ 7. Sign the application.
- 8. Mail completed forms and required documentation to your utility provider:

## **2015 CUSTOM ELECTRIC PROGRAM**

2015 CUSTOM ELECTRIC PROGRAM MINIMUM EFFICIENCY REQUIREMENTS: Determined by energy savings on equipment or appliances as documented by third party testing NOTE: Contact your utility for pre-qualification. May require up to 10 weeks or more to process rebate.					
Description of Improvements:					
Calculated Annual Electric Energy Savings:					
Calculated Reimbursement: \$	OFFICE USE ONLY				
	OFFICE USE ONE!				
Date of Installation:	Rebate Total: \$				
Must have greater than 1 year, and less than a 6 year payback.  Fuel switching technologies are excluded on retrofits.  Attach third party testing documentation with necessary information for calculating savings.	Savings:kWhkW				

Thank you for doing your part to save electricity, water, and natural gas in our communities. For other rebates and programs offered, visit our websites:

**Austin Utilities** www.austinutilities.com

**Owatonna Public Utilities** www.owatonnautilities.com **Rochester Public Utilities** www.rpu.org

When purchasing any type of appliance or equipment, look for the ENERGY STAR® or ENERGY STAR® Most Efficient logos!
