AMI Tech (Applications and Technology Specialist) description

Austin Utilities is seeking a talented and self-driven person to oversee our Advanced Metering Infrastructure (AMI). This position will provide support to members across multiple disciplines on the company's technology transformation during a multiyear project.

Advanced Metering Infrastructure (AMI) is a secure communication network system that involves installation of new technology and new electric, gas and water meters. These meters allow for remote two-way communication capability which improves our operational efficiencies that results in customer savings, modernization of AU's power grid to become more proactive and improve reliability and give customers access to tools to better manage their consumption use and stay on budget.

Key responsibilities include but are not limited to:

- Responsible for AMI System;
- Resolve technical and operational issues related to E, W, G AMI metering, load management equipment, analyzing, researching and investigating service voltage issues;
- Work with Meter Data Management (MDM), Automated Metering Infrastructure (AMI) and Customer Information System (CIS) data to create and provide reports and analyses for use in improving efficiency in operations;
- Use SCADA (OSI) and SEL RTAC applications to provide reports and develop alarm and display enhancements for use in improving efficiency in operations;
- Software or database administration is preferred;
- Ability to quickly adjust to a variety of changing software applications.

Why should you apply?

Opportunity to spearhead the AMI process from the ground up and help us grow into the fast changing power system future as we make major investments in new smart grid technologies. This position provides an opportunity for personal and career development to advance your career as you demonstrate your expertise.

What will it take to be successful?

- Associates or Bachelor's degree in related technical field;
- Three years related experience is desirable in software applications and communication, or an equivalence of experience and education;
- Possess a current and valid driver's license.

How to apply: Please complete the AMI Tech (Applications and Technology Specialist) application packet (application and supplemental questionnaire) located on our website <http://www.austinutilities.com/pages/careers>. Please forward your application package and resume to: Email: danu@austinutilities.com or Mail: Austin Utilities, Attn: Human Resources, 1908 14th St NE, Austin MN 55912. EEO
