

ELECTRIC VEHICLE OWNERS CLUB

If you are as charged up about electric vehicles (EVs) as we are, join Austin Utilities Electric Vehicle Owners (EVO) club and help us charge up the community. When you join Austin Utilities' exclusive EVO club you will connect with other EVOs, help spread the word about the benefits of driving EVs, and be first to know about exclusive Austin Utilities EV offers and events.

As more Austin Utilities customers purchase EVs, the additional electric sales will be a benefit to the utility and the community, but only if cars are charging properly. We want to help EV owners learn the best time to charge their vehicles and how they can benefit from charging their vehicles at the right time of day. We also want to learn about EV owners needs and habits as we develop EV related rates and programs.

Benefits for club members:

- Help Austin Utilities understand EV owner needs and habits as we develop EV related programs and rates
- Be the first to hear about special utility EV charging rates and offers
- Connect with other EV owners
- Share your EV experience
- Have the option to participate in Austin Utilities EV events

EV club qualifications:

- ✓ Must be an Austin Utilities residential account household
- ✓ Own or lease a qualified electric vehicle*
- ✓ Complete this form
- ✓ Submit a copy of your Minnesota automobile registration

*Only vehicles that are licensed EV (all electric) or PHEV (Plug-in Hybrid Electric Vehicle) that can travel on the freeway at highway speeds are eligible. Austin Utilities reserves the right to determine eligibility.

Sign up
TODAY!
