**Interconnection Compliance & Owner Acknowledgement**

The electrical system referenced above shall meet UTILITY's "Interconnection Guidelines For Customer-Owned New Distributed Generation for 40 kW or Less".

Customer shall be solely responsible for obtaining and complying with any and all necessary easements, licenses and permits, or exemptions, as may be required by federal, state, local statutes, regulations, ordinances or other legal mandates.

The Customer shall submit documentation to UTILITY that the system has been inspected and approved by the local permitting agency regarding electrical code requirements.

Customer shall not commence parallel operation of the generating system until inspecting written approval of the interconnection has been given by UTILITY.

I the undersigned have completed this application for interconnection, which accurately describes the equipment to be interconnected and operated in parallel with UTILITY's distribution system. I have read and understand the Interconnection Guidelines for Producer-Owned New Distributed Generation for 40 kW or Less and understand that approval of application is dependent on compliance with these Guidelines and the accuracy of the information as included in this Attachment.
